

**JUVENTUS
ACADEMY
QATAR**

COVID-19 DECLARATION

Dear Parent,

Under the guidance from the Ministry of Education, we will be operating the Juventus Academy Qatar with a number of precautionary measures in place. We are working on the assumption all participants (children and their parents) will have completed the quarantine requirements, if travelled internationally, as per Qatari law by the time the child/children return(s) to training.

Each morning, before training with the Juventus Academy Qatar, we need you to complete the following steps with your child/children.

- Make sure your child/children do(es) not have a sore throat or other signs of illness, like a cough, shortness of breath, difficulty breathing, fatigue, muscle or body aches, congestion or runny nose, diarrhea, severe headache or vomiting. If your child/children display(s) any of these symptoms, he/they must stay at home and you should inform your child's/children's coach(es).
- Take your child's/children's temperature, each morning before training. If the temperature is 37.8°C or higher, you must keep your child/children at home and inform his/their coach(es).
- If your child/children has/have had close contact with a COVID-19 case, you must keep your child/children at home and inform his/their coach(es).

Once your child/children is/are in the Juventus Academy Qatar facility, his/their temperature will be taken by the security team and the coach(es). If his/their temperature is above 37.8°C, then he/they will be isolated and you will be asked to come and collect your child/children immediately.

For children aged 12+ the coaches will also check the Ehteraz app status. Any children who do not have a green status will be isolated and you will be asked to come and collect your child/children immediately.

We request that you work with us in ensuring the health and safety of all children and staff at Juventus Academy Qatar and for this your cooperation is required.
